Dear Ms Standley,

The following are responses to your request for information regarding our petition for 211 designation. (Docket No. 05-00275)

Questions 1 & 2: (attachment 1)

Questions 3&4: (attachment 2) List of Churches, United Way of Bedford, Franklin, Moore and Coffee county, business, and individuals that have financially supported contact Life Line for many years and stated they will continue. We have included several letters of support.

No question #5

Question 6: (attachment 3) This is partial list of our current services and referral agencies. In response to your question how will adding 211 change this list? We believe adding 211 services would bring additional resources that we might not be aware of to better serve the people of our community.

Question 7: Response sent by Doug Fluegal

Dear Mr Fisher

This letter is a show of support for the 2-1-1 service being considered for the Franklin County area The Executive Director, Jeannie Amacher, as well as the entire board of the United Way of Franklin County believe this service will be a tremendous asset to the area. We feel that this would be a vehicle to people in our communities for seeking the services they need in a timely manner. This would allow the many charities, churches and government agencies to coordinate their efforts and see that no one in need is overlooked.

It is our intention to promote 2-1-1at every opportunity, including our fall campaign

Please keep in touch with us regarding your efforts to get this service off the ground and let us know if we can assist you in any way.

Dear Mr Jones,

My wife and I have supported Contact Lifeline of the Highland Rim both financially and as volunteer telephone workers since it began in 1981. We plan to continue to support Contact Lifeline in the future.

This Center provides a much needed service to the four county area through the Crisis lines and the Reassurance Program for shut-ins and for elderly clients. These programs have provided continuous uninterrupted coverage 24/7 for more than 24 years. Contact has provided a much needed service for the communities during this time. The addition of the 2-1-1 coverage will expand the services to the communities and will provide a valuable contribution. Much of the equipment and the telephone workers needed to add this important program to the current work that is being done are available at this time.
